

Notice of Privacy Practices

This notice describes how health information about you may be used and disclosed and how you can get access to this information.

Dear Patient:

This is not meant to alarm you! Quite the opposite! It is our desire to communicate to you that we are taking the new Federal (HIPAA-Health Insurance Portability and Accountability Act) laws written to protect the confidentiality of your health information seriously. We do not ever want you to delay treatment because you are afraid your personal health history might be unnecessarily made available to others outside of our office.

So what has changed and why a privacy policy now?
Very good question!

The most significant variable that has motivated the Federal government to legally enforce the importance of the privacy of health information is the rapid evolution of computer technology and its use in healthcare. This has challenged us to review not only how your health information is used within our computers but also with the Internet, phone, faxes, copy machines, and charts. We believe this has been an important exercise for us because it has disciplined us to put in writing the policies and procedures we use to ensure the protection of your health information everywhere it is used.

We want you to know about these policies and procedures that we developed to make sure your health information will not be shared with anyone who does not require it. Our office is subject to State and Federal law regarding the confidentiality of your health information and in keeping with these laws; we want you to understand our procedures and your rights as our valuable patient.

We will use and communicate your **Health Information** only for the purposes of providing your treatment, obtaining payment and conducting health care operations. Your health information will not be used for other purposes unless we have asked for and been voluntarily given your written permission.

You also may submit a written complaint to the U.S. Department of Health and Human Services. We will provide you with the address to file your complaint with the U.S. Department of Health and Human Services upon request.

We support your right to the privacy of your health information. We will not retaliate in any way if you choose to file a complaint with us or with the U.S. Department of Health and Human Services.
